INDEX TO VOLUME 22

Subject Index

Abortion
Abortion Determinants in China, Update, p. 3.

Abortion in Context: Women's Experience in Two Villages in Thai Binh Province, Vietnam, A. Johansson, T. N. T. Le, T. L. Nguyen and K. Sundström, p. 103.

Induced Abortion in the Developing World: Indirect Estimates, H. B. Johnston and K. H. Hill, p. 108.

Misoprostol Alone Is Not a Highly Effective Medical Abortion Regimen, but It Rarely Causes Side Effects, Digest, p. 133.

Africa
AIDS Deaths May Exceed 100,000 per Year in Uganda over the Next 25 Years, Digest, p. 87.

Case Studies in Emergency Contraception from Six Countries, see **Emergency Contraception**.

Child Spacing Via Mass Media, Update, p. 138.

Contraceptive Prevalence in Rural South Africa, O. Chimere-Dan, p. 4.

Contraceptive Services in Zanzibar, Update, p. 91.

Early Marriage Among Women in Developing Countries, see **Status of Women**.

Estimating Contraceptive Needs from Trends in Method Mix in Developing Countries, see **Population Policy and Research**.

Fertility Has Fallen in Zimbabwe, Reflecting Rising Contraceptive Use and Desire for Smaller Families, Digest, p. 46.

Few Married Women Use a Method in Côte d'Ivoire, but Fertility Is Decreasing, Digest, p. 130.

In the Central African Republic, Contraceptive Prevalence Is Low and Few Births Are Unwanted, Digest, p. 128.

In Nigeria, Family Size Governs Which Spouse's Fertility Desires Prevail, Digest, p. 82.

Kenya's Fertility Transition, Update, p. 3.

Limited Choices in Nigeria, Update, p. 51.

Potential Demographic Significance of Unmet Need, see **Fertility: Planning and Effects**.

STD Treatment Program Lowers Risk of HIV Infection in Tanzania, see **Sexually Transmitted Diseases**.

Tanzania Registers Declines in Levels of Impaired Fertility, Digest, p. 132.

Asia
Abortion in Context: Women's Experience in Two Villages in Thai Binh Province, Vietnam, see **Abortion**.

Case Studies in Emergency Contraception from Six Countries, see **Emergency Contraception**.

Contraceptive Failure in Matlab, Bangladesh, R. Bairagi and M. Rahman, p. 21.

Early Marriage Among Women in Developing Countries, see **Status of Women**.

Economic Development Has Improved Lives of Asian Women, but Cultural Traditions Can Limit Its Effects, Digest, p. 81.

Estimating Contraceptive Needs from Trends in Method Mix in Developing Countries, see **Population Policy and Research**.

Explaining the Commitment of Family Planning Fieldworkers in Bangladesh, S. S. Andaleeb, p. 10.

Fertility in Some Nepali Villages Varies with Level of Gender Equality, Digest, p. 88.

Fertility in Vietnam Has Fallen Since the Late 1980s; Further Decline Seems Likely in the Near Future, Digest, p. 135.

Gynecologic Problems Are Common Among Recent Mothers in Parts of India, Digest, p. 45.

Legal, Ethical and Regulatory Aspects of Introducing Emergency Contraception in the Philippines, see **Emergency Contraception**.

Marriage Timing in Sri Lanka, Update, p. 139.

New Perspective on the Definition and Measurement of Unmet Need, see **Fertility: Planning and Effects**.

Potential Demographic Significance of Unmet Need, see **Fertility: Planning and Effects**.

Prospects for Increased Condom Use Within Marriage in Thailand, see **Barrier Methods**.

Son Preference Remains Strong Among Vietnamese Women, but Has Only a Modest Effect on Fertility, Digest, p. 84.

Thai Program Increases Men's Use of Condoms with Sex Workers, Digest, p. 177.

Value of Pap Tests, Update, p. 139.

Women's Credit Programs and Family Planning in Rural Bangladesh, R. Amin, Y. Li and A. U. Ahmed, p. 158.

Barrier Methods
Prospects for Increased Condom Use Within Marriage in Thailand, J. Knodel and A. Pramualratana, p. 97.

Thai Program Increases Men's Use of Condoms with Sex Workers, see **Asia**.

Breastfeeding
Breastfeeding and Breast Cancer, Update, p. 50.

Breastfeeding and Infant Mortality, Update, p. 90.

Breastfeeding: Is Less Better? Update, p. 138.

Cesarean Section and Breastfeeding, Update, p. 91.

Safe for Six Months, Update, p. 51.

Women Breastfeeding Infants Longer in Many Developing Countries, Digest, p. 134.

Contraceptive Practice
Both Contraceptive Use and Unplanned Births Are Common in Ecuador, Digest, p. 85.

Contraceptive Failure in Matlab, Bangladesh, see **Asia**.

Contraceptive Prevalence in Rural South Africa, see **Africa**.

Discontinuation in the Philippines, Update, p. 91.

Examining the Increasing Prevalence of Traditional Contraceptive Methods in Honduras, see **Latin America and the Caribbean**.

Few Married Women Use a Method in Côte d'Ivoire, but Fertility Is Decreasing, see **Africa**.

In Colombia, Fertility Decreases as Contraceptive Prevalence Among Women in Union Reaches 72%, see **Latin America and the Caribbean**.

In the Central African Republic, Contraceptive Prevalence Is Low and Few Births Are Unwanted, see **Africa**.

Lower Egyptian Fertility Linked to Later Marriage, Increased Method Use, see **Middle East**.

Women's Credit Programs and Family Planning in Bangladesh, see **Asia**.

Contraceptive Research
Research on New Methods of Emergency Contraception, see **Emergency Contraception**.

Testosterone Injections Suppress Sperm Production, Providing Effective Level of Contraceptive Protection, see **Hormonal Implants and Injectables**.

Emergency Contraception
Case Studies in Emergency Contraception from Six Countries, A. Glasier, E. Ketting, V. T. Palan, L. Browne, S. Kaur, B. Xiao, J. Garza-Flores, L. Estrada Vasques, G. Delano, G. Faoye, C. Ellertson and E. Armstrong, p. 57.

Emergency Contraception: The International Planned Parenthood Federation's Experience, Research Note, P. Senanayake, p. 69.

History and Efficacy of Emergency Contraception: Beyond Coca-Cola, C. Ellertson, p. 52.

Introducing Emergency Contraceptive Services: Communications Strategies and the Role of Women's Health Advocates, Comment, E. T. Robinson, M. Metcalf-Whittaker and R. Rivera, p. 71.

Legal, Ethical and Regulatory Aspects of Introducing Emergency Contraception in the Philippines, Comment, F. M. Tadiar and E. T. Robinson, p. 76.

Research on New Methods of Emergency Con-

traception, H. von Hertzen and P. F. A. Van Look, p. 62.

Fertility: Planning and Effects

Earlier Marriage, but Fewer Births, Update, p. 90.

Fertility Has Fallen in Zimbabwe, Reflecting Rising Contraceptive Use and Desire for Smaller Families, see **Africa**.

Fertility in Some Nepali Villages Varies with Level of Gender Equality, see **Asia**.

Fertility in Vietnam Has Fallen Since the Late 1980s; Further Decline Seems Likely in the Near Future, see **Asia**.

Few Married Women Use a Method in Côte d'Ivoire, but Fertility Is Decreasing, see **Africa**.

In Colombia, Fertility Decreases as Contraceptive Prevalence Among Women in Union Reaches 72%, see **Latin America and the Caribbean**.

In Haiti, More than Half of All Births are Either Unwanted or Mistimed, see **Latin America and the Caribbean**.

In Nigeria, Family Size Governs Which Spouse's Fertility Desires Prevail, see **Africa**.

Key to Lower Fertility, Update, p. 91.

Lower Egyptian Fertility Linked to Later Marriage, see **Middle East**.

New Perspective on the Definition and Measurement of Unmet Need for Contraception, D. S. DeGraff and V. de Silva, p. 140.

Potential Demographic Significance of Unmet Need, C. F. Westoff and A. Bankole, p. 16.

Schooling's Fertility Effect Greatest in Low-Literacy, High-Fertility Societies, Digest, p. 43.

Son Preference Remains Strong Among Vietnamese Women, but Has Only a Modest Effect on Fertility, see **Asia**.

Still Growing, but More Slowly, Update, p. 91.

Tanzania Registers Declines in Levels of Impaired Fertility, see **Africa**.

Unmet Need and Potential Demand, W. N. Ryerson, Letter, p. 61.

Women's Credit Programs and Family Planning in Rural Bangladesh, see **Asia**.

Hormonal Implants and Injectables

Clue to Implant Removal, Update, p. 51.

Counseling Cuts Discontinuation, Update, p. 90.

Injectables and Cervical Cancer, Update, p. 2.

One Implant, One Year, Update, p. 50.

Testosterone Injections Suppress Sperm Production, Providing Effective Level of Contraceptive Protection, Digest, p. 178.

Intrauterine Devices

An Almost Perfect IUD? Update, p. 90.

IUD Failures Add Up in China, Update, p. 2.

Low-Risk IUD Insertions, Update, p. 51.

Latin America and the Caribbean

Believe It If You See It, Update, p. 50.

Both Contraceptive Use and Unplanned Births Are Common in Ecuador, see **Contraceptive Practice**.

Case Studies in Emergency Contraception from Six Countries, see **Emergency Contraception**.

Early Marriage Among Women in Developing Countries, see **Status of Women**.

Estimating Contraceptive Needs from Trends in Method Mix in Developing Countries, see **Population Policy and Research**.

Examining the Increasing Prevalence of Traditional Contraceptive Methods in Honduras, D. Hubacher, M. Suazo, S. Terrell and M. Pinel, p. 163.

Impact of a Mass Media Vasectomy Promotion Campaign in Brazil, D. L. Kincaid, A. P. Merritt, L. Nickerson, S. de Castro Buffington, M. P. P. de Castro and B. M. de Castro, p. 169.

In Colombia, Fertility Decreases as Contraceptive Prevalence Among Women in Union Reaches 72%, Digest, p. 176.

In Haiti, More than Half of All Births Are Either Unwanted or Mistimed, Digest, p. 181.

Operations Research on Promoting Vasectomy in Three Latin American Countries, R. Vernon, p. 26.

Potential Demographic Significance of Unmet Need, see **Fertility: Planning and Effects**.

Regret After Female Sterilization Among Low-Income Women in São Paulo, Brazil, see **Sterilization**.

Males

Aspects of Men's Sexual Behavior Affect Wives' Risk of Cervical Cancer, Digest, p. 130.

Impact of a Mass Media Vasectomy Promotion Campaign in Brazil, see **Latin America and the Caribbean**.

Operations Research on Promoting Vasectomy in Three Latin American Countries, see **Latin America and the Caribbean**.

Prospects for Increased Condom Use Within Marriage in Thailand, see **Barrier Methods**.

Testosterone Injections Suppress Sperm Production, Providing Effective Level of Contraceptive Protection, see **Hormonal Implants and Injectables**.

Thai Program Increases Men's Use of Condoms with Sex Workers, see **Asia**.

Maternal and Child Health

Childhood Survival Increasing, Update, p. 139.

Education and Child Mortality, Update, p. 2.

Fertility Affects Child Survival, Update, p. 50.

Fewer Visits, Same Outcome, Update, p. 138.

Gynecologic Problems Are Common Among Recent Mothers in Parts of India, see **Asia**.

Sibling Rivalry at Its Worst, Update, p. 50.

UNICEF Tallies Maternal Deaths, Update, p. 90.

Wantedness and Children's Health, Update, p. 138.

Middle East

Early Marriage Among Women in Developing Countries, see **Status of Women**.

Estimating Contraceptive Needs from Trends in Method Mix in Developing Countries, see **Population Policy and Research**.

Lower Egyptian Fertility Linked to Later Marriage, Increased Method Use, Digest, p. 179.

Potential Demographic Significance of Unmet Need, see **Fertility: Planning and Effects**.

Quinacrine Pellet Method of Nonsurgical Female Sterilization in Iran: Preliminary Report on a Clinical Trial, see **Sterilization**.

Natural Family Planning

Examining the Increasing Prevalence of Traditional Contraceptive Methods in Honduras, see **Latin America and the Caribbean**.

Oral Contraceptives

New Generation of Progestins May Raise Oral Contraceptive Users' Risk of Blood Clots, Digest, p. 41.

Third-Generation Pills May Elevate Risk of Venous Thromboembolism, Slightly Lower Heart Attack Risk, Digest, p. 83.

Population Policy and Research

Estimating Contraceptive Needs from Trends in Method Mix in Developing Countries, J. T. Johnson and B. A. Macke, p. 92.

Program Evaluation and Funding

Contraceptive Pricing, P. D. Harvey, Letter, p. 126.

Explaining the Commitment of Family Planning Fieldworkers in Bangladesh, see **Asia**.

How Do You Define Success? A. Sayeed, A. Ellis, C. Bahamon, B. Bezmalinovic, S. C. Huber and S. Solter, Letter, p. 124

Impact of a Mass Media Vasectomy Promotion Campaign in Brazil, see **Latin America and the Caribbean**.

What Do We Really Know About the Impact of Price Changes on Contraceptive Use? Viewpoint, B. Janowitz and J. H. Bratt, p. 38.

Women's Credit Programs and Family Planning in Rural Bangladesh, see **Asia**.

Sexual Behavior

Anal Sex and HIV in Brazil, Update, p. 2.

Aspects of Men's Sexual Behavior Affect Wives' Risk of Cervical Cancer, see **Males**.

Sexually Transmitted Diseases

AIDS Deaths May Exceed 100,000 per Year in Uganda over the Next 25 Years, see **Africa**.

AIDS in 2005, Update, p. 139.

AIDS Trends in Argentina, Update, p. 139.

Douching May Raise STD Risk, Update, p. 3.

HIV Transmission During Birth, Update, p. 2.

STD Treatment Program Lowers Risk of HIV Infection in Tanzania, Digest, p. 44.

Status of Women

Advancing Reproductive Rights Beyond Cairo and Beijing, Comment, R. J. Cook and M. F. Fathalla, p. 115.

Early Marriage Among Women in Developing Countries, S. Singh and R. Samara, p. 148.

Economic Development Has Improved Lives of Asian Women, but Cultural Traditions Can Limit Its Effects, see **Asia**.

Patriarchy Raises Fertility, Update, p.2.

Women's Credit Programs and Family Planning in Rural Bangladesh, see **Asia**.

Sterilization

Impact of a Mass Media Vasectomy Promotion Campaign in Brazil, see **Latin America and the Caribbean**.

Operations Research on Promoting Vasectomy in Three Latin American Countries, see **Latin America and the Caribbean**.

Quinacrine Pellet Method of Nonsurgical Female Sterilization in Iran: Preliminary Report on a Clinical Trial, Research Note, S. Soroodi-Moghaddam, p. 122.

Regret After Female Sterilization Among Low-Income Women in São Paulo, Brazil, E. M. Vieira and N. J. Ford, p. 32.
